(54) MAIL SERVER, ELECTRONIC MAIL STORING METHOD, AND MEDIUM RECORDED WITH PROGRAM FOR ELECTRONIC MAIL STORAGE

(57)Abstract:

PROBLEM TO BE SOLVED: To decrease the storage capacity of a mailbox by cutting an attached file out of electronic mail and storing it in a storage means, and adding information showing the storage location of the cut-out attached file to electronic mail thereby storing the mail in the mailbox.

SOLUTION: A receiver detecting means 120 checks the destination of received electronic mail and when more than one receiver is set as the destination, an attached file detecting means 130 checks whether or not a file is attached to the electronic mail. When a file is attached, an attached file cutting-out means 140 cuts the attached file out and an attached file storing means 150 stores the cut-out attached file in an attached file storage means 210. After an attached file storage information adding means 160 adds the storage information of the attached file to the electronic mail, an electronic mail storing means 170 copies the electronic mail and stores it in the mailboxes 220 of the receivers.
